<b>Depth reducing pool platforms</b>			
	100 x 100 x 20cm, 9kg	PF1000/1000H200	Low pool platform island
	100 x 100 x 70cm, 22kg	PF1000/1000H700	High pool platform island

Pool platforms are solid and stable constructions that reduce the pool depth and improve pool accessibility.

Pool platform PF

Pool platform with handrail and bottom side protection

Pool platform with protection on two sides

Pool platform with protection on three sides

Pool platform for reducing floor slope

Stairs to platform

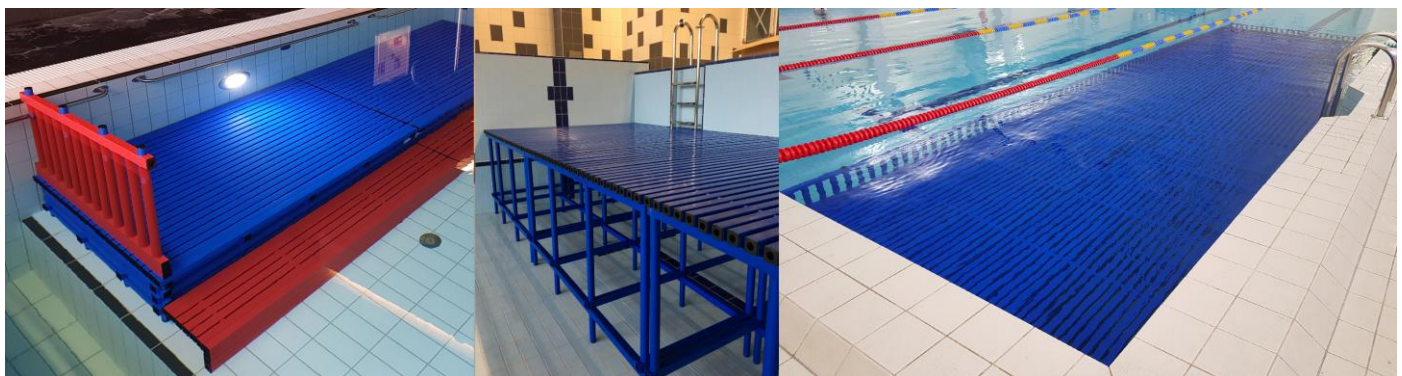

Pool platforms have been designed to assist new swimmers in swimming lessons, where pool bottom is too deep or help children, seniors and patients enjoy water procedures.

Pool platforms are made especially for swimming schools, commercial pools, spas and hospitals.

Accessories:

Rubber feet for better grip with the floor

Removable connectors for platform segments

Check video of the pool platform installation!

Project price varies from individual measurements and pool specifications.

Professional measuring and installation available on your site.

All drawings are provided before the start of manufacturing process.

Custom solutions for custom pools.
